SKILLS

React, Redux, Ruby, Rails, Javascript, HTML, CSS, SQL

PROJECTS

Arrow (Rails, ReactJS, Redux, CSS, AWS S3)

[live](#) | [github](#)

A single page Target clone offering users an authentic e-commerce experience.

- Incorporated custom search using Redux.
- Integrated a robust user authentication system, utilizing the SecurePassword module in rails, providing secure access control for the website.
- Established a RESTful API for seamless communication between the frontend and backend, ensuring smooth data flow and functionality.

xChngd (JavaScript, D3, APILayer Currency API, HTML5, CSS)

[live](#) | [github](#)

A minimalist JavaScript project displaying currency information and exchange rates for any country clicked on a world map.

- Implemented a world map using the D3 library as well as topoJSON data to draw each country on the map allowing users to interact with the map and retrieve information on any country's currency.
- Integrated the currency exchange API to enable users to view exchange rates to the USD for all available currencies in the API.
- Developed clear and concise documentation to aid in the understanding, usage, and maintenance of the project.

ARTifacts (MongoDB, Express, ReactJS, Node.js, Leaflet Library, Cleveland Art API, CSS)

[live](#) | [github](#)

A web app that enables users to explore and discover art from different countries and time periods.

- Successfully collaborated with a team of developers to implement the project, using version control tools such as Git to ensure efficient project management.
- Utilized the Cleveland Art API to retrieve and display artwork and information of artwork, creating a comprehensive and authentic platform for users.
- Conducted thorough testing and debugging to ensure that the application's stability, performance, and optimal user experience.
- Actively participated in team meetings, discussions, and code reviews, fostering effective communication and collaboration among team members.

EXPERIENCE

Fulfillment Expert

Target Corp.

May 2018 - Present

- Facilitated the end-to-end fulfillment process for online orders, ensuring timely and accurate delivery to customers across the country.
- Consistently met or exceeded pick on time productivity targets, demonstrating a strong work ethic and commitment to customer satisfaction.
- Assisted with other tasks as needed, such as organizing merchandise, conducting inventory counts, and unloading trucks, demonstrating adaptability and willingness to take on new responsibilities.

EDUCATION

Web Development - App Academy

Jan. 2023 - Apr. 2023

- 1000-hour immersive full stack web development intensive course with <3% acceptance rate
- Receive comprehensive training in industry-leading technologies, including JavaScript, Ruby on Rails, React, and database management systems such as PostgreSQL and MongoDB.
